App Store

GET IT ON  
Google Play

# Why the world need Okitel?

## Privacy

Privacy will never be a concern anymore. None of your personal data will be exposed.

## Data Servers

No data is stored on any server; it only resides within your app. Once deleted, it is genuinely erased.

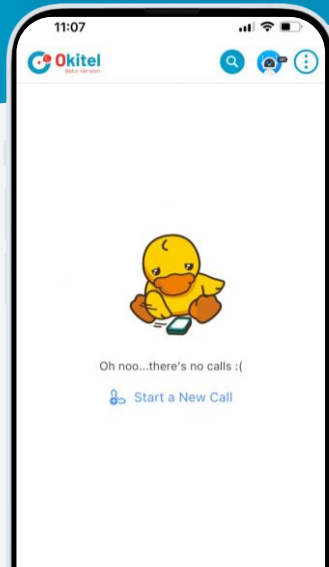

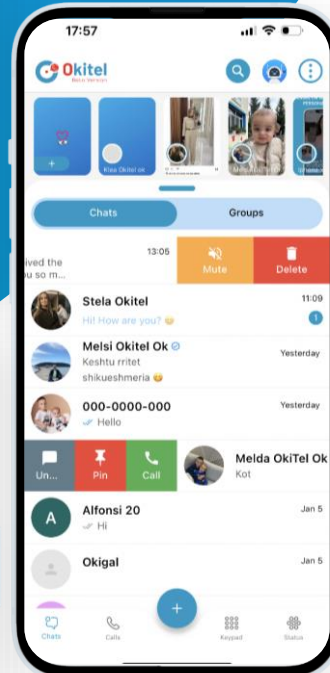

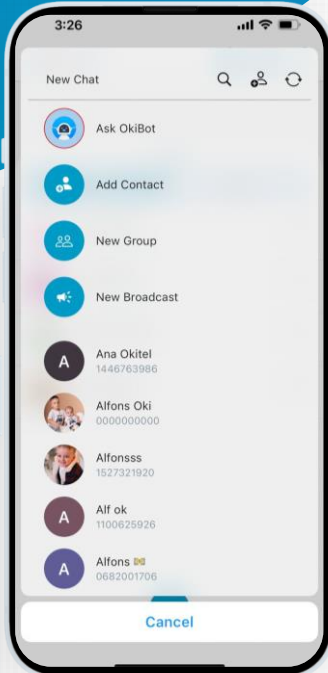

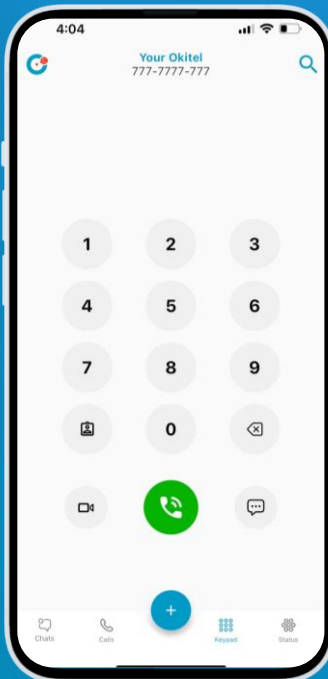

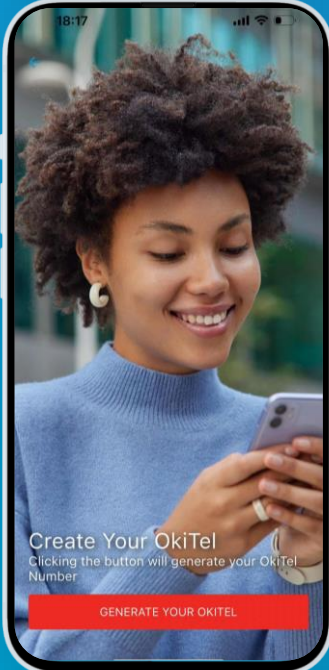

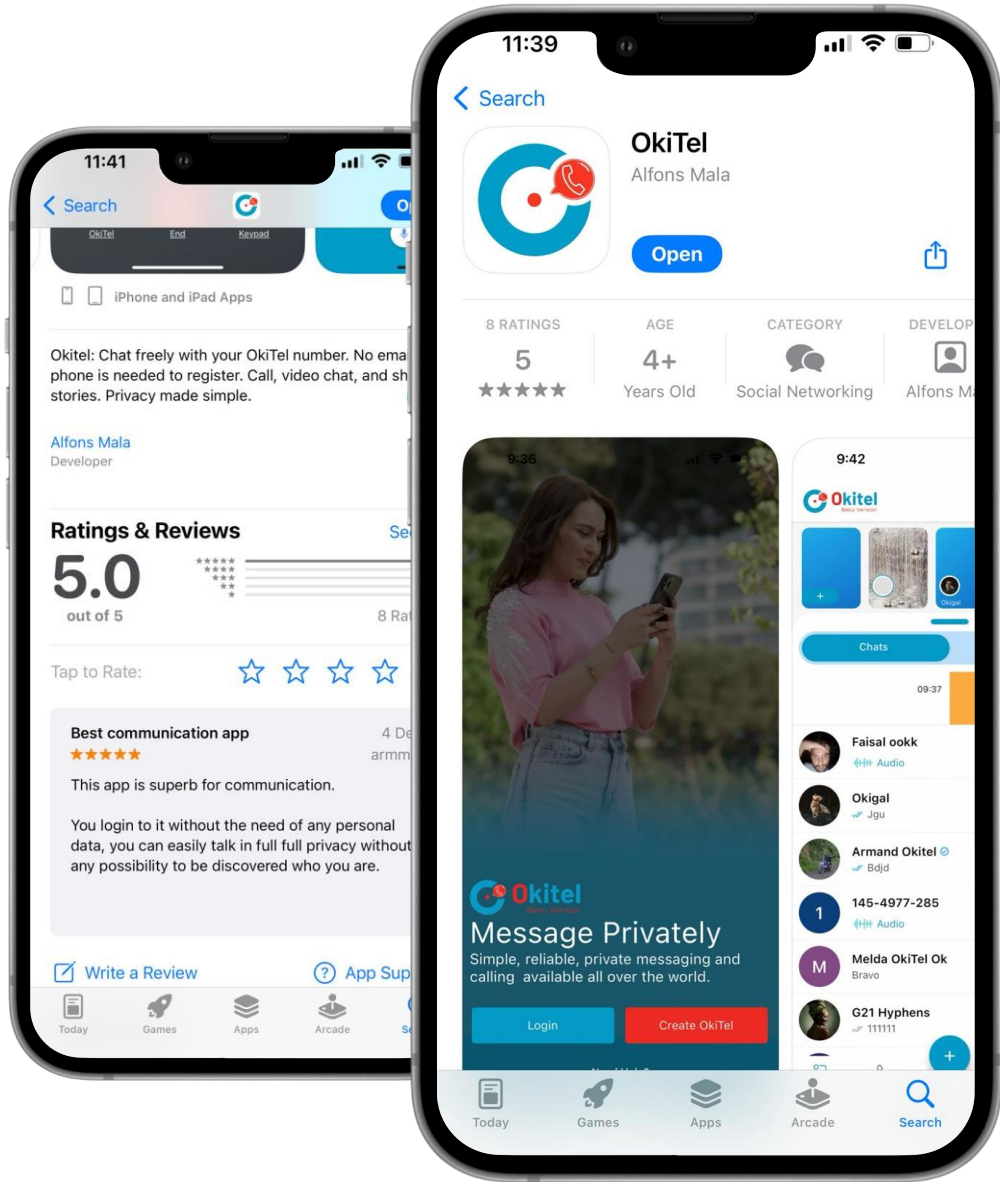

## Fully Private Communication

Once you choose to delete your Okitel account, there is no way to prove that you were a user at any point in the past.

# Best Features

- Your identity is just a random generated number.
- The app requires ZERO personal data.
- Shake to deactivate! **In emergency**, you can deactivate your Okitel by simply shaking your phone.
- User Friendly! You learn to use it within first hours.
- Avoid Data Leaks! Since no data in it, data leaks is not an issue.
- Once you delete a conversation it is deleted permanently from everywhere.
- No data kept in servers.
- Fair environment for everybody.

# Best Application For You

Okitel goes beyond your usual messaging app – it's a lifestyle upgrade. We've combined the best features from different communication apps to create a versatile platform that suits all your needs. Whether you're chatting with friends, coordinating with colleagues, or just staying connected, Okitel has you covered.

99.99%

Application

Safe and Simple

# Road to Okitel

## Research

Long time researching on what users need.

## Developing

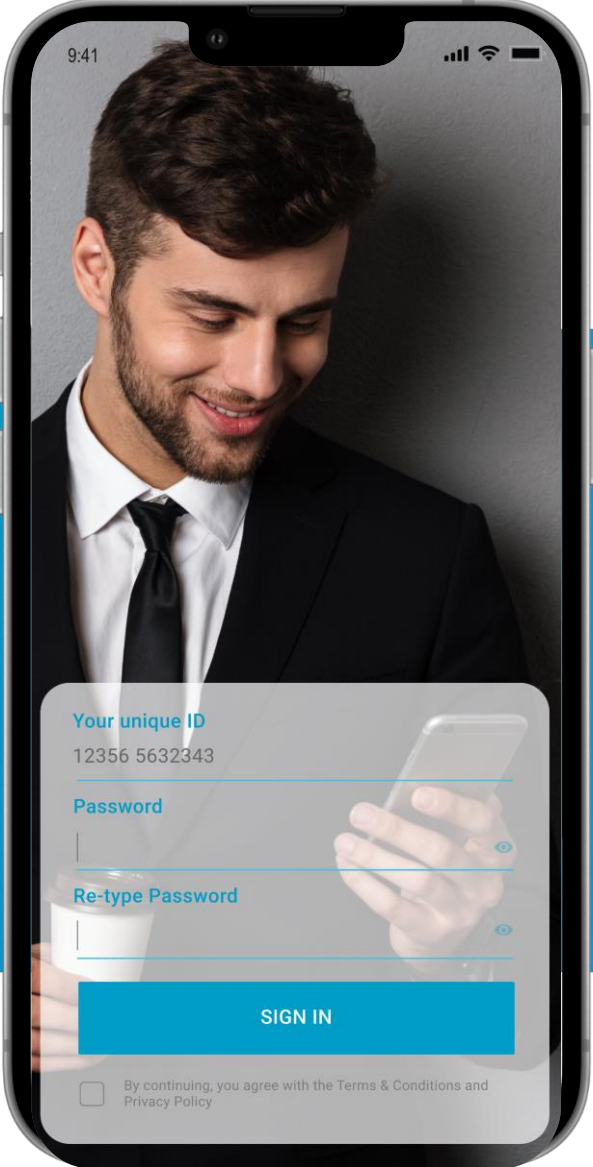

4 years of developing to enrich with most required features for all users.

## Privacy for everybody

Privacy must be available for all not only for a bunch of people.

# Business Model

## Developing Stage

All developing and making it available for downloads are covered by the founders.

## Achieving 10M downloads

Our goal is to achieve 10M users that want to speak worries free.

## Looking for investors

We are open to any investor that wants to join Okitel. Your funds are crucial to maintain and promote Okitel while it safely grows.

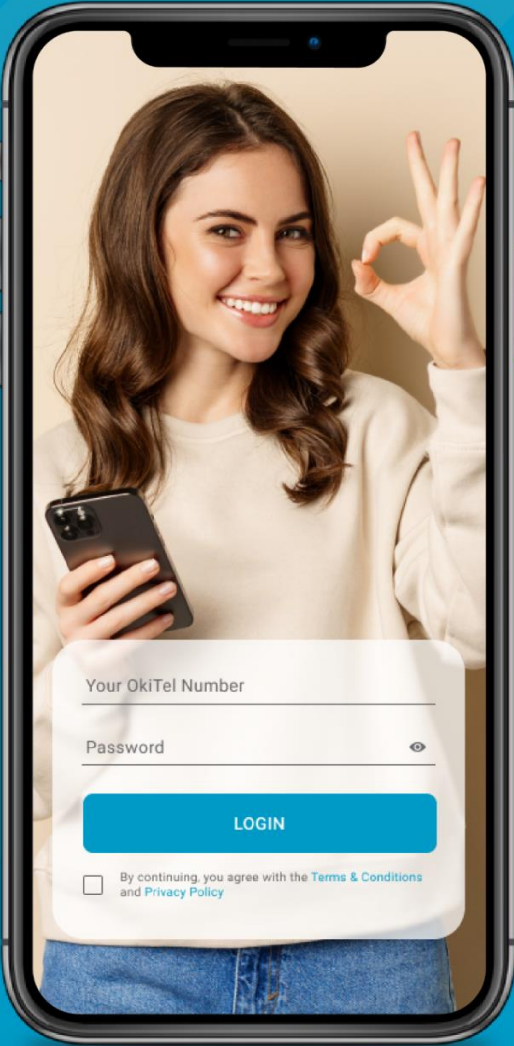

## Make it paid app

The app will have a subscription which can easily be afforded by everyone.

Simple, reliable, private messaging and calling, available all over the world.

HELLO!
